DISCLAIMER

THIS PRESENTATION AND ITS CONTENTS ARE CONFIDENTIAL AND ARE NOT FOR RELEASE, PUBLICATION OR DISTRIBUTION, IN WHOLE OR IN PART, DIRECTLY OR INDIRECTLY, IN OR INTO OR FROM THE UNITED STATES OF AMERICA TO ANY U.S. PERSON (AS DEFINED IN REGULATION S UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED) OR IN ANY OTHER JURISDICTION IN WHICH SUCH RELEASE, PUBLICATION OR DISTRIBUTION WOULD BE PROHIBITED BY APPLICABLE LAW.

This presentation has been prepared by New Zealand Local Government Funding Agency Limited ("LGFA") for general information purposes only and is not a prospectus or other offering document under any law and does not constitute an offer, recommendation or invitation to subscribe for or purchase any securities and nothing contained herein shall form the basis of any contract or commitment whatsoever. By listening to the presentation, or reading the presentation materials, you acknowledge and agree to the contents of this disclaimer.

To the maximum extent permitted by law, neither LGFA nor any of its affiliates, directors, officers, partners, employees or agents make any representation, recommendation or warranty, express or implied as to the accuracy, completeness or currency of any of the information in this presentation and accept no responsibility or liability therefore. Data is indicative and approximate only, and all information is subject to change. Some information may be taken from publicly available sources and has not been verified by LGFA. This presentation is intended as a snapshot view of LGFA only, and LGFA has no obligation, and does not undertake or accept any responsibility or obligation, to update, expand or correct anything in this presentation or inform you of any matter arising or coming to its notice, after the date of this presentation, which may affect any matter referred to in this presentation.

This presentation contains forward-looking statements including information regarding LGFA's future bond issuances and forecast financial performance based on current information, estimates and forecasts. Those statements are subject to risks, uncertainties, and assumptions which are hard to predict or anticipate, and therefore actual outcomes and performance may differ materially from the statements. Any opinions expressed in this presentation reflect the judgement of LGFA as the date hereof, and do not bind LGFA.

This presentation has not been lodged with Australian Securities and Investments Commission or any other authority.

This presentation is intended for distribution only to financial institutions and professional investors in Australia whose ordinary business includes the buying or selling of securities in circumstances where disclosure is not required under Chapter 6D.2 or Chapter 7 of the Corporations Act 2001 (Cth) (the "**Corporations Act**") and only in such other circumstances as may be permitted by applicable law. This presentation must not be given, and is not intended to be given, to any "retail client" within the meaning of section 761G of the Corporations Act. Any securities that may be offered by LGFA in, or into, Australia are offered only as an offer that would not require disclosure to investors under Part 6D.2 or 7.9 of the Corporations Act. LGFA does not hold an Australian Financial Services Licence under the Corporations Act and is not licensed to provide any advice, including in relation to securities or derivatives. If any financial product advice is, in fact, held to have been given by LGFA in relation to any securities of LGFA, it is general advice only. No cooling-off regime applies under Australian law to investors in any securities of LGFA.

This presentation may contain references to credit ratings. A credit rating is not a recommendation to buy, sell or hold securities, and may be subject to revision, suspension or withdrawal at any time by the relevant assigning organisation. Each credit rating should be evaluated independently of any other credit rating. Credit ratings are for distribution only to a person (a) who is not a "retail client" within the meaning of section 761G of the Corporations Act and is also a sophisticated investor, professional investor or other investor in respect of whom disclosure is not required under Part 6D.2 or 7.9 of the Corporations Act, and (b) who is otherwise permitted to receive credit ratings in accordance with applicable law in any jurisdiction in which the person may be located. Anyone who is not such a person is not entitled to receive this presentation and anyone who receives this presentation must not distribute it to any person who is not entitled to any person or entity in any jurisdiction or country where such distribution would be contrary to applicable law and no action has been taken to permit the public distribution of this presentation in any jurisdiction.

IMPACT OF NORTH ISLAND WEATHER EVENTS

- The early cost estimate of cyclone Gabrielle is around NZ\$13 billion (the Christchurch earthquakes were around NZ\$40 billion and the Kaikoura earthquakes NZ\$3 billion).
 - Most of the cost will be met by Central Government and private insurers.
 - Agreement reached between Central Government and Hawkes Bay councils for 50/50 cost sharing of category 3 houses and new flood protection.
 - > The Hawkes Bay package is worth up to \$556 million in Government funding.
 - Agreement reached between Central Government and Auckland Council for cost sharing of around \$2 billion for flood recovery and resilience work including projects to build resilience against future flooding events (\$820 million), transport network recovery (\$390 million) and Category 3 buyouts (\$774 million).
- UWaka Kotahi will provide subsidies for roading repairs.
 - The level of subsidies are negotiated but historically have been up to 95% (weather event subsidies are higher than the normal roading subsidy provided to councils).
 - > Central Government has already announced an initial NZ\$250 million in funding for the National Land Transport Fund.
- □ Councils typically have insurance.
 - > Buildings are generally insured. Bridges are sometimes insured.
 - > Central Government will contribute 60% of the cost of below ground infrastructure (60/40 arrangement).
- □ There was some damage to three water infrastructure (for example Napier).
- □ Some councils will make funding requests under the Civil Defence Emergency Plan (section 33).
- □ Councils estimate the recovery phase could take up to three years.
- □ The biggest cost to the sector will be around resilience and in the longer term, managed retreat.

FINANCIAL PERFORMANCE OF THE SECTOR

- □ The sector generally emerged from Covid in better shape than it went in:
 - ➢ sector revenue has increased by around 8% in both the 2020/21 and 2021/22 financial years;
 - but some metro councils are still experiencing some ongoing impact on revenue. This is mainly due to loss of public transport and parking revenue;
 - In the council sector was a significant beneficiary of Central Government grant funding over past three years, including the NZ\$2.6 billion (shovel ready projects) and NZ\$761 million of Affordable Water Reform Programme grants funding;
 - councils received NZ\$500 million of "Better Off Funding" in relation to the Affordable Water Reform Programme transition in the 2022/23 financial year; and
 - ➤ the NZ\$3.8 billion Housing Acceleration Fund will assist some councils in the future.
- □ Although council finances are in a good state, there are some challenges on the horizon:
 - rising interest rates;
 - > inflation is putting pressure on budgets (both operational and capital expenditure);
 - ➢ revaluation of assets is creating an increase in depreciation charges;
 - ➤ staff shortages; and
 - > uncertainty over Affordable Water Reform Programme.

COUNCIL BALANCED BUDGET OUTCOMES

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

Council operating income as a percentage of operating expenditure

Source: LGFA calculation from council annual reports.

2023/24 ANNUAL PLANS

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

- Councils faced challenges balancing their operating budget (although starting point was generally good)
 - Impact of inflation;
 - Higher interest costs;
 - Increased insurance costs;
 - Increased depreciation (as a result of higher asset revaluations);
 - Unbudgeted costs of weather events (increasingly likely); and
 - > Implications of government's free grant money (need to fund operating costs and depreciation).
- Much easier to balance the budget when inflation is 2% (rate increases of 4% are more acceptable to the community than double digit increases).
- □ Some councils are consulting on reduced levels of service.
 - Recognising not doing so would only defer the problem until next year.
- □ While other councils are opting to borrow for operating purposes.
 - Affordability is an issue for the community.
 - Look to reset budgets in the 2024-2034 LTP.
 - Operating performance will look better after the transition of affordable water assets.
- Despite the challenges, the average forecast budget balanced outcome for 2023/24 is 104.7%. (63% of councils are forecasting an operating surplus).

AFFORDABILTY

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

□ Longer term, there is a debate to be had about affordability

□ Standard & Poors said (February 2023):

"Someone must pay, and it will always be residents. While general property rates and council targeted charges are likely to be lower under water the reforms, overall costs for New Zealanders will be much higher given the perceived scope of investment required."

□ The Chair of Waka Kotahi said (2022 Annual Report):

"As we have signalled previously, the growing funding pressures faced by Waka Kotahi and our investment partners in local government mean that this vision will not be realised without significant changes to the land transport funding model."

- □ Issues being considered by LGFA
 - Will increased weather events limit the contribution made by Waka Kotahi for emergency reinstatement assistance? Is there a risk that the funding assistance rate will be lower in the future?
 - > Who will fund the impact of climate change and the cost of adaptation?
 - Will the costs of not adapting be even greater?
 - The costs of managed retreat.
 - The costs of seismic strengthening.

REVIEW INTO THE FUTURE OF LOCAL GOVERNMENT

- In April 2021, the Minister for Local Government (Minister) established a Review into the Future for Local Government.
- There is recognition that traditional roles and functions of local government are changing. The scope review looked at:
 - roles, functions and partnerships;
 - ➤ representation and governance; and
 - ➤ funding and financing.
- □A final report was presented to the Minister in June 2023¹.
- The key recommendations were:
 - Strengthening local democracy (partnership with iwi, change voting age to 16, STV voting, 4-year cycle);-
 - Different options for the structure of councils (one recommendation was a regional authority with smaller councils below this to encourage more localism).
 - New funding sources rates paid on government land, rebate of GST that is paid on rates, intergenerational climate change fund.

AFFORDABLE WATER REFORMS

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

- □ July 2020, the Government launched the Three Waters Reform Programme. This was renamed Affordable Water Reform Programme in April 2023.
- October 2021, the Government announced it would create four Water Services Entities ("WSEs") but increased the proposed number to ten WSEs in April 2023.
- There is general consensus that reforms are needed, although a large part of the local authority sector are opposed to the Government's proposed model.
- The proposed WSEs will work alongside the water services regulator, which currently oversees and enforces the new drinking water regulatory framework.
- The Water Services Entities Act was enacted on 14 December 2022, and the Water Services Legislation Act and the Water Services Efficiency and Consumer Protection Act were both enacted on 30 August 2023.
- The new WSE's were expected to start delivering water services from July 2026 at the latest. A WSE can commence operations from 1 July 2024.
- The National Party who are likely to form the incoming Government stated that they will repeal the above legislation. Their preference is for a Water CCO model.

Total Water Entities	2024	2025	2026	2027	2028	2029	2030	2031
Debt (NZ\$ billions)	\$12.21	\$13.32	\$14.41	\$15.33	\$15.63	\$15.74	\$15.66	\$15.38
Assets (NZ\$ billions)	\$88.17	\$90.36	\$92.61	\$94.86	\$97.12	\$99.38	\$101.66	\$103.95
Revenue (NZ\$ billions)	\$3.25	\$3.42	\$3.56	\$3.70	\$3.84	\$3.98	\$4.12	\$4.28
Connected Households	1,696,152	1,725,464	1,755,302	1,785,674	1,816,591	1,848,061	1,880,097	1,912,707

The boundaries of the ten water services entities:

THREE WATERS REFORMS – LGFA IMPACT

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

Awaiting further details on incoming National coalition Government proposed Water CCO model.

- Cabinet Papers (released 30 June 2021) suggest proposed WSEs will have wide range of potential debt funding solutions:
 - ➤ an equivalent of LGFA for the WSEs;
 - > NZ domestic retail and wholesale capital markets; and
 - ➤ offshore capital markets.
- The Water Services Entities Amendment Act 2023 allows for the establishment of a Water Services Entities Funding Agency.
- □ Shadow credit ratings for proposed WSEs highlight importance of WSEs within public sector.
- Average term of council long term loans from LGFA is 4.0 years (October 2027) as at 31 October 2023.

Appendices

LGFA OVERVIEW

SHAREHOLDERS

- NZ Government largest shareholder at 20%
- □ 30 councils hold 80% shareholding
- Can only sell shares to NZ Government or councils

GOVERNANCE

- Board comprising 5 Independent and 1 Non Independent Directors
- Bonds listed on NZX
- □ Independent Trustee
- Issue of securities under the Financial Markets Conduct Act 2013
- □ Audited by Audit NZ

LIQUIDITY

- Up to NZ\$1.5 billion liquidity facility from NZ Government¹
- □ NZ\$1.83 billion liquid assets portfolio²
- NZ\$794 million of Treasury Stock currently available for repo

GUARANTORS

- □ 72 guarantors of LGFA
- Guarantors comprise:
 - All shareholders except the NZ Government
 - Any non shareholder who may borrow more than NZ\$20 million
 - Any council shareholder of a councilcontrolled organisation (CCO) that is approved for borrowing by LGFA
- Security granted by each of the guarantors is over their rates revenue
- Guarantors cannot exit guarantee until
 - Repaid all their, and any of its CCO's, borrowings and
 - After the longest outstanding LGFA bond to mature (currently 2037)

Source: LGFA, as at 31 October 2023

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

BORROWERS

- □ 77 member councils
- □ 5 CCOs
- Approximately 90% market share
- Councils' borrowing secured against rates revenue
- □ Must meet LGFA financial covenants

CAPITAL STRUCTURE

- □ NZ\$25 million paid in capital
- □ NZ\$20 million uncalled capital
- □ NZ\$78 million retained earnings
- NZ\$393 million Borrower Notes that can be converted to equity
- Current capital ratio of 2.60% with policy of 2% minimum and target of 3%

COUNCIL MEMBERSHIP AND BORROWING

LGFA – RECENT DEVELOPMENTS 2021-2023

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

□ Record amount of long-term lending to councils

Twelve-month period to 30 June 2022

Twelve-month period to 30 June 2023

- Twelve-month period to 30 June 2021 lending of NZ\$2.86 billion and LGFA bond issuance of NZ\$3.27 billion
 - lending of NZ\$3.33 billion and LGFA bond issuance of NZ\$3.90 billion
 - lending of NZ\$3.99 billion and LGFA bond issuance of NZ\$3.55 billion
- Four-month period to 31 October 2023 lending of NZ\$1.76 billion and LGFA bond issuance of NZ\$1.32 billion and A\$1 billion.
- □ Increased forecast council lending and LGFA bond issuance by approximately NZ\$1 billion in each of next three years in June 2023 SOI compared to previous forecast.

□ Membership

 \geq

≻

 \geq

 \geq

- Five councils and five CCOs joined between 1 July 2021 and 31 October 2023
- Four CCOs at different stages of joining as of 31 October 2023
- □ Sustainability focus across the organisation and lending activities.
- New product initiatives
 - CCO lending 3 CCOs borrowed
 - Standby facilities NZ\$747 million to sixteen councils as at 31 October 2023
 - Green, Social and Sustainability Lending Programme launched 1 October 2021 first GSS loans made to councils in December 2021 and total NZ\$371.2 million as at 31 October 2023
 - Climate Action Loans Lending Programme to councils launched 2 December 2022 first CALs approved in March 2023 and total NZ\$1,065.7 million as at 31 October 2023
- □ NZ Government Liquidity Facility maximum commitment increased to NZ\$1.5 billion and term extended to December 2031.
- Rise in interest rates has negatively impacted on unrealised mark to market ("mtm") valuation of swaps positions used to hedge fixed rate bond issuance.

□ Credit ratings

- S&P Global Ratings Long term local credit rating increased to AAA and foreign currency long term credit rating to AA+ on 22 February 2021
- Fitch Foreign currency issuer default rating ("IDR") raised to AA+ on 16 September 2022 no change to domestic currency IDR of AA+

Debut issuance in offshore markets through a A\$1 billion issue of a 1 August 2028 medium term note.

ECP Programme established.

WHAT IS THE CREDIT QUALITY OF THE LENDING BOOK?

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

- 89.1% of LGFA loans to councils and CCOs with credit ratings.
- 83.6% of LGFA loans to AA- rated (or better) councils and CCOs.
- □ Average credit quality is approx. AA.
- Improving trend in underlying credit quality of council sector over the past seven years. However, 5 councils on negative outlook = NZ\$3.4 billion (19.1% loan book).
- Not all councils and CCOs have credit ratings due to cost of obtaining a rating vs benefits.
 - Average total lending to unrated councils and CCOs is NZ\$43 million per council
 - NZ\$50 million of debt is approximate breakeven for a council to obtain a credit rating
- LGFA undertakes detailed credit analysis of all member councils and CCOs separate to the external credit rating process performed by S&P, Fitch and Moody's.
- Unrated councils are assessed by LGFA as having, in general, better credit quality than those councils with credit ratings.

External Credit Rating (S&P, Fitch)	Lending (NZ\$ millions)	Lending (%)	Number of Councils and CCOs
AA+	\$3,262	18.3%	10
AA	\$8,945	50.2%	18

PRUDENT APPROACH TO RISK MANAGEMENT

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

LGFA's policy to minimise financial risks and carefully identify, manage and control all risk.

Market Risk

- PDH limit of NZ\$150,000 current exposure (as at 31 October 2023) NZ\$92,5629
- VAR limit of NZ\$1,000,000 current exposure (as at 31 October 2023) NZ\$321,946

Credit Risk

All councils that borrow from LGFA are obliged to:

- provide security in relation to their borrowing from LGFA and related obligations;
- issue securities (bonds/FRNs/CP) to LGFA;
- comply with their own internal borrowing policies; and
- comply with the LGFA financial covenants within either the Lending Policy or Foundation Policy.
 Auckland Council is limited to a maximum of 40% of LGFA's total Local Authority assets.
 All CCOs that borrow from LGFA are obliged to comply with requirements set by the LGFA Board.

□ Liquidity and Funding Risk

Cash and Investments

- LGFA manages liquidity risk by holding cash and a portfolio of liquid assets to meet obligations (including any collateral required to be posted under its swaps) when they fall due; and
- LGFA only invests in NZD senior debt securities, money market deposits and registered certificates of deposits within strict counterparty limits.

NZ Government liquidity facility

- The New Zealand Government provides a committed liquidity facility up to NZ\$1.5 billion that LGFA can draw upon to meet any exceptional and temporary liquidity shortfall; and
- Facility size is set by LGFA at NZ\$1.5 billion (as at 30 September 2023).

Collateral posting

Under LGFA's swaps with NZDM, there was an unrealised mtm valuation loss of \$1.61 billion as at 31 October 2023. However, LGFA is, in summary, only required to post collateral to NZDM under its swaps to the extent the valuation loss exceeds the facility size of the NZ Government liquidity facility.

Financial covenant	Lending policy covenants	Foundation policy covenants		
Net Debt / Total Revenue	<175%	<280% ¹		
Net Interest / Total Revenue	<20%	<20%		
Net Interest / Annual Rates Income	<25%	<30%		
Liquidity	>110%	>110%		

¹ There is an alternative Net Debt / Total Revenue foundation policy covenant for councils with a long-term credit rating of 'A' equivalent or higher.

Liquidity position as at 31 October 2023 ²	NZ\$ million
Cash and cash equivalents	\$341.55
Deposits and Marketable Securities	\$1,487.01
Total	\$1,828.56

² Excludes liquid assets to support council standby facilities and collateral posted

LGFA CREDIT RATINGS

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

S&P Global Ratings – March 2023

Local Currency AAA / Stable / A-1+ Foreign Currency AA+ / Stable / A-1+

Strengths:

- dominant market position as source of funding for New Zealand local government;
- high credit quality of LGFA's borrowers;
- extremely high likelihood of support from the New Zealand Government in a stress scenario; and
- very good risk management and management and governance among LGFA's key strengths.

Weaknesses:

- highly concentrated lending portfolio; and
- moderate capital adequacy.

□ Fitch Ratings - October 2023

Local Currency AA+ / Stable / F1+ Foreign Currency rating AA+ / Stable / F1+

Long-term Foreign-Currency Issuer Default Rating was upgraded to AA+ on 16 September 2022

Fitch notes:

- strong links to the sovereign classified as a government-related entity;
- strong underlying credit quality of its council shareholders and borrowers;
- ratings are equalised with the ratings of the sovereign; and
- support of a joint and several liability guarantee.

Rating Agency	Domestic Currency	Foreign Currency	Date of Report

LGFA'S ROLE IN CLIMATE AMBITION AND SECTOR LEADERSHIP

LGFA has a key role to play in helping the local government sector to decarbonise

- □ LGFA is the predominant funder of New Zealand's local government activities and projects that impact local natural environments, local communities and future generations-;
- □ LGFA recognises the risks inherent in climate change for both New Zealand and Councils and is committed to supporting New Zealand's shift to a low-carbon economy-;
- □ LGFA is amplifying its engagement with councils and CCOs to deepen awareness of GHG reduction opportunities and the role LGFA can play to incentivise greater accountability and transparency of initiatives undertaken by Councils and CCOs-;
- □ To help achieve these goals, LGFA developed sustainable loans for borrower councils and CCOs (**Borrowers**) to incentivise them to commit to greater climate change action. These loans comprise:
 - Green, Social and Sustainability (GSS Loans) that assist Borrowers to fund sustainable assets (such as green buildings and public transport); and
 - Climate Action Loans (CAL) to support Borrowers commit to climate targets and GHG emissions reduction plans-; and
- □ LGFA has also established a Sustainability Committee which reviews applications for GSS Loans and CALs (together, **Sustainable Loans**)-; and
- □ Sustainable Loans are documented as debt securities under LGFA's Multi-Issuer Deed with Borrowers.

STRUCTURE OF SUSTAINABLE FINANCING BOND PROGRAMME

New Zealand Local Government Funding Agency Te Pûtea Kāwanatanga ā-rohe

LGFA has set up a transparent and integrated documentation hierarchy for the Sustainable Financing Bond Programme

Information provided by the Borrowers will inform annual reporting on any Sustainable Financing Bonds, which will then be reviewed by the selected external reviewer as to the extent of alignment with the GSS Loan Criteria and the CAL Criteria.

¹Sustainable Loans are documented as debt securities under LGFA's Multi-Issuer Deed.

OVERVIEW OF SUSTAINABLE FINANCING BOND FRAMEWORK

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

LGFA has developed an innovative Sustainable Financing Bond Framework

- □ LGFA has developed the Sustainable Financing Bond Framework (**Framework**)¹ to:
 - recognise LGFA's commitment to support Borrowers to fund sustainable assets and activities, and incentivise GHG emissions reductions;
 - enable LGFA to issue bonds that are notionally allocated to the Sustainable Loans on LGFA's balance sheet; and
 - advance the market for sustainable finance by providing an innovative opportunity for investors to support Borrowers to achieve their sustainability aspirations.

□ The Framework is informed by:

- International Capital Markets Association's (ICMA) Green Bond Principles (GBP), Social Bond Principles (SBP), and Sustainability Bond Guidelines (SBG); and
- Asia-Pacific Loan Market Association's (APLMA) Green Loan Principles (GLP), Social Loan Principles (SLP), and Sustainability-Linked Loan Principles (SLLP),

each as at the date of the Framework (together, the Market Standards).

- □ The Framework follows the "proceeds-based" pillars of the Market Standards (particularly the GBP, the SBP and the SBG), and is underpinned by the GSS Loan Criteria² and the CAL Criteria³.
- Morningstar Sustainalytics (Sustainalytics) has provided a Second Party Opinion dated 29 March 2023⁴ (SPO) on the Framework.

Important note: LGFA is not claiming direct alignment with the Market Standards. Any bonds that LGFA may choose to issue under the Framework will not be Green, Social or Sustainability Bonds⁵, and nor will they be Sustainability-Linked Bonds⁶.

Sustainable Financing Bond Framework

Benefiting local communities hrough delivering efficient inancing for local government (a whiwhi painga ngã hapori nã te whakarato pūtea tôtika ki ngã kaunihera

31 March 2023

¹ The Framework may be updated from time to time. The current Framework can be found at <u>www.lgfa.co.nz/sustainability/sustainable-financing-bonds</u>

² GSS Loan Criteria is defined on slide [60], which includes information on the GSS Loan Criteria.

³ CAL Criteria is defined on slide [61], which includes information on the CAL Criteria.

⁴ A copy of the SPO is available on LGFA's website at <u>www.lgfa.co.nz/sustainability/sustainable-financing-bonds</u>.

⁵ Given the nature of the Sustainable Loan Asset Pool, which comprises both GSS Loans and CALs together in the same pool, sustainable financing bonds do not meet the "Use of proceeds" requirement under the GBP or the SBP. ⁶ This is because the bonds will not include sustainability targets for LGFA or have variable coupons or redemptions.

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

LGFA has approved¹NZ\$572.3 million of GSS Loans, of which NZ\$371.2 million has been advanced to councils to date

GSS Category	Borrower	Date Sustainable Loan Approved	Project Description	Sustainable Loan Type	Approved Amount for Project (NZ\$ million)	Principal Amount Advanced to date (NZ\$ million)	Allocation to Sustainable Loan Asset Pool under Framework (NZ\$ million)
Green Buildings	Wellington City Council	14 October 2021	Takina, Wellington Convention and Exhibition Centre	Green Loan	180	180	180
Green Buildings	Hutt City Council	28 June 2022	Naenae Pool and Fitness Centre	Green Loan	41	35	35
Green Buildings	Whangarei District Council	19 August 2022	Whangārei Civic Centre	Green Loan	59	59	59
Total Green Buildin	ngs Loans				280	274	274
Climate Change Adaptation	Greater Wellington Regional Council	2 December 2021	RiverLink Project	Green Loan	227	55	55
Total Climate Char	nge Adaptation Loans				227	55	55
Biodiversity Conservation	Tauranga City Council	10 October 2023	Kopurererua Valley Stream Realignment	Green Loan	10.3	-	-
Biodiversity Conse	rvation				10.3	-	-
Affordable Housing	Christchurch City Council	17 November 2022	OCHT Social Housing	Social Loan	55	42.2	42.2
Total Social Loans	Total Social Loans						42.2
Total	5 Borrowers				572.3	371.2	371.2

¹Where a GSS Loan is "approved", LGFA is not committed to provide those funds. Rather, LGFA has indicated to the relevant Borrower that, subject to satisfaction of conditions precedent, LGFA intends to advance the relevant amount as GSS Loan(s) when the Borrower makes a request under LGFA's Multi-Issuer Deed.

EXTERNAL REVIEW OF THE FRAMEWORK

LGFA recognises the heightened transparency that independent external reviews of sustainable finance structures can provide, and has obtained an external review on the Framework

- Sustainalytics reviewed the Framework and provided a SPO¹ on the Framework dated 29 March 2023.
- □ In the SPO, Sustainalytics sets out a detailed analysis and concludes that:
 - > the components of the Framework are **credible**;
 - > the Framework is expected to advance LGFA's and New Zealand's sustainability objectives and generate positive environmental and social impact;
 - the Framework, as based on the proceeds-based pillars of the general market standards for sustainable finance, is overall in alignment with the impact and transparency principles, which underpin the sustainable finance market; and
 - any Sustainable Financing Bonds issued under the Framework will fund overall impactful social and environmental Sustainable Loan pools of GSS Loans and CALs.

Opinio	n	
Reviewed by:		
MOBNINGSTAR	SUSTAIN	ALYTICS

EXTERNAL REVIEW OF THE GSS LOAN CRITERIA AND THE CAL CRITERIA

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

The scope of the external review also included assessing the GSS Loan Criteria in accordance with the Market Standards and market practice

- Sustainalytics reviewed the GSS Loan Criteria.
- □ In its SPO¹, Sustainalytics concluded that:
 - > the GSS Loan Criteria is credible and impactful;
 - the GSS Loan Criteria aligns with the Green Loan Principles
 2023, and the Social Loan Principles 2023;
 - the eligible categories for the use of proceeds align with those recognised by the Green Loan Principles 2023, and the Social Loan Principles 2023;
 - the 18-month look-back period for existing projects is in line with market practice; and
 - the eligible categories that will deliver overall positive environmental and social impacts.

The scope of the external review also included assessing the CAL Criteria in accordance with the Market Standards and market practice

- □ Sustainalytics reviewed the CAL Criteria.
- □ In its SPO¹, Sustainalytics concluded that:
 - the CAL Criteria is partially aligned with the intent of the Sustainability-Linked Loan Principles 2023²;
 - the Key Performance Indicator (KPI) and Sustainability Performance Target (SPT) to be used by the Borrowers are expected to be in line with the SLLP;
 - the requirement of CAL borrowers to annually verify or assure the SPT for the KPI, is in line with the SLLP on verification;
 - the strength of the KPI ("absolute gross Scope 1 and Scope 2 GHG emissions") for the CALs as it relates to councils and CCOs is "Strong" and "Adequate" respectively; and
 - the SPT in the CALs ("reduction in absolute gross Scope 1 and Scope 2 GHG emissions in line with a 1.5°C sciencebased scenario") is "Highly Ambitious".

¹A copy of the SPO Is available on LGFA's website at <u>www.lgfa.co.nz/sustainability/sustainable-financing-bonds</u>

² Sustainalytics considers the CAL (pricing and margin adjustment) characteristics set out in the CAL Criteria are not technically aligned with the SLLP's loan characteristics component as a penalty cannot be linked within the same CAL term due to existing accounting standards.

SUSTAINABLE LOAN ASSET POOL

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

Sustainable financing bond proceeds will be notionally allocated to a pool of Sustainable Loans

- □ LGFA intends to notionally allocate an amount equal to the net proceeds of sustainable financing bonds to a pool of Sustainable Loans (consisting of either GSS Loans, CALs, or both) that meet the eligibility criteria set out in the Framework (Sustainable Loan Asset Pool).
- □ As at 31 October 2023, the Sustainable Loan Asset Pool is NZ\$1,436.9 million (comprising NZ\$371.2 million GSS Loans and NZ\$1,065.7 million CALs).
- □ LGFA intends to fully allocate a sustainable financing bond (i.e. notionally allocate an amount equal to the net proceeds) to Sustainable Loans within two years of the issue date of the relevant sustainable financing bond.
- LGFA will maintain a register (Sustainable Loan Register) of the Sustainable Loan Asset Pool.
- External review of the Sustainable Loans in the Sustainable Loan Asset Pool is as follows:
 - For GSS Loans: In addition to the Second Party Opinion that Sustainalytics provided on the Framework (see slide 25), Sustainalytics has also provided a Sustainable Financing Bond Pre-Issuance Review Letter¹ which concludes, in relation to the GSS Loans that had been entered into at the time the letter was issued, "nothing has come to Sustainalytics' attention that causes us to believe that, in all material respects, the Nominated Projects and the processes LGFA intends to follow to manage the proceeds of the Sustainable Financing Bonds are not aligned with LGFA's Sustainable Financing Bond Framework".
 - > For CALs: LGFA entered into the first CALs on 30 March 2023.

ANNUAL IMPACT REPORT

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

- □ LGFA published its first Annual Impact Report on 30 September 2023¹
- □ Sustainalytics reviewed the Annual Impact Report and provided
 - > a review of the projects financed under the Framework; and
 - an assessment as to whether the project met the use of proceeds criteria and the reporting commitments outlined in the Framework.
- □ In the Review, Sustainalytics evaluated the projects to which LGFA had notionally allocated an amount equal to the net process of the sustainable financing bonds to finance GSS loans and CALs, based on whether the projects:
 - Met the use of proceeds and eligibility criteria defined in the LGFA Sustainability Financing Bond Framework; and
 - Reported on at least one key performance indicator for each use of proceeds category defined in the LGFA Sustainable Financing Bond Framework.

LGFA BOND ISSUANCE – FUNDING STRATEGY

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

Issuance Strategy

- □ Match NZ Government Bond where possible
 - Maturities, Tenders, AIL paid on behalf of offshore holders
- Issuance of new lines by syndications and issuance of existing lines via both auctions and syndication taps.
- Liquidity important objective of more than NZ\$1 billion per series and soft cap of NZ\$3 billion per series (excluding Treasury Stock).
- □ All LGFA bonds issued in NZ\$ are listed on NZX.
- Objective to target tender issuance every five weeks of NZ\$150 million to NZ\$200 million in size and at least three maturities tendered.
- □ A\$ MTN issuance to complement NZ\$ issuance.

	Forecast Gross Council & CCO Borrowing	Forecast Net Council & CCO Borrowing	Forecast Gross LGFA Bond Issuance	Forecast Net LGFA Bond Issuance
2023-24	\$4.21 billion	\$2.25 billion	NZ\$4.50 billion	NZ\$2.25 billion
2024-25	\$4.19 billion	\$1.91 billion	NZ\$4.15 billion	NZ\$1.43 billion

LGFA BOND ISSUANCE – FUNDING STRATEGY

Secondary Market Yields and LGFA Spread to NZGB as at 31 October 2023

LGFA A\$ BOND ISSUANCE

Background

- Historical preference to fund in NZD given borrowing requirement
- Diversification of funding sources required as balance sheet and annual funding requirement increased
- AUD Medium Term Notes programme established 2017
- Annual funding requirement more than NZ\$4 billion in each of next three years

Inaugural Kangaroo Bond

- Australia and New Zealand Banking Group Limited, Commonwealth Bank of Australia, National Australia Bank Limited and Westpac Banking Corporation appointed as JLMs to debut issue that was priced on 25 July 2023
- □ Maturity Date: 1 August 2028
- Volume: A\$1 billion
- Coupon: 4.70%
- Issue yield: 4.739%
- Issue margin +55 bps to swap
- □ 41 investors (excluding bank trading books)
 - ➢ 1 New Zealand investor
 - 10 offshore investors who hold LGFA NZD bonds \geq
 - 30 new investors both Australian and offshore investors
- **RBA** repo eligible

LGFA intends to be a regular issuer in the A\$ market subject to investor demand and pricing.

ASSET LIABILITY MISMATCHES

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

The asset liability mismatch is the difference between LGFA bonds issued and loans to councils and CCOs for each date or period. The positive outcomes show more LGFA bonds have been issued than loans made to councils and CCOs for that date or period. The negative outcomes show loans made to councils and CCOs with maturity dates between LGFA bond maturities.

NEW ZEALAND LOCAL GOVERNMENT SECTOR

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

- □ 78 Local Government ("council") entities.
- □ Financial management:
 - "a local authority should ensure prudent stewardship and the efficient and effective use of its resources in the interests of its district or region". *Local Government Act 2002 s14.*
- Balanced budget approach rates reset annually to balance expenditure with operating income.
- Revenue certainty through rates (property taxes) providing 66% of revenue:
 - rates not affected by level of economic activity or property market;
 - councils have broad powers to tax (rate) properties;
 - no upper limit on rates income; and
 - rate collection ranks ahead of all other claimants including Inland Revenue Department and mortgagees.
- □ No defined benefit pension liabilities or welfare obligations.
- Debt used essentially to finance new assets.
- Robust planning with extensive public consultation.
- Strong institutional framework and relationship with Central Government.
- □ Security can be provided to lenders by councils:
 - charge over rates and future rates income; and
 - all LGFA bondholders indirectly have the benefit of a Debenture Trust Deed from each guarantor council which gives a charge over rates and future rates income. This security is shared with other council lenders.

RANGE OF ACTIVITIES UNDERTAKEN BY THE GOVERNMENT SECTOR

Central Government	Mixture of Central and Local Government Funding	Local Government
Education (primary, secondary and tertiary provision)	Public transport operation (typically 53% from Central Government)	Water, wastewater and storm water
Public healthcare and hospitals	Rail infrastructure (negotiated)	Rubbish and recycling collection and disposal
Fire services	Local roads (construction, maintenance, cleaning)	Street cleaning
State highways	Public housing	Health / Sanitation Inspections
Police and corrective facilities		Building inspections
Pensions and welfare		Public facilities (parks, recreation facilities, swimming pools, sports fields)

LGFA INTERNAL CREDIT RATINGS OF COUNCIL MEMBERS

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

LGFA undertakes its own internal credit assessment and rating process for all member councils using most recent annual reports (June 2022)

Primary Criteria

- Debt levels relative to population affordability
- Debt levels relative to asset base
- > Ability to repay debt
- Ability to service debt interest cover
- Population trend
- Assessment of climate change and resilience

LGFA member councils by internal rating category

LGFA Internal Ratings	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022
AA+	1	2	2	4	4	6	7	8	9	2	0
AA	12	12	12	10	12	13	19	17	22	37	15
AA-	13	13	16	15	19	17	19	23	23	18	39
A+	8	6	3	11	10	12	13	10	12	12	19
А	6	10	11	6	6	3	4	4	5	3	4
A-	5	2	1	1	0	2	2	2	1	0	1

Secondary Criteria

- 30 Year Infrastructure Strategy
 - Quality of Assets
 - Capital Expenditure
 Plan
- Risk Management
 - Insurance
- Governance
- Financial flexibility
- Cashflow
- Budget performance (balanced budget)
- Affordability of rates / Deprivation Index
- Natural hazards
- Group activities (CCOs)

As at 30 June each year

COUNCIL FINANCIAL DISTRESS – MITIGANTS

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

- Local Government Framework reduces risk of financial distress no historical default by a council.
- □ Councils have own Treasury Management and borrowing policies most have independent advice.
- Council financial oversight by Office of Auditor General (OAG), Audit NZ and Department of Internal Affairs.
- Councils under Local Government (Financial Reporting and Prudence) Regulations 2014 required to report annually on performance against benchmarks including:

□ Councils required to comply with LGFA lending covenants

Annual attestation by council

LGFA credit analysis and monitoring performed through the year

LGFA credit watch-list in place

LGFA not obligated to lend to council members (except under council standby facilities provided by LGFA)

Covenant breach in respect of securities (Bonds/FRN/CP) issued by a council is an Event of Review – after 30 days LGFA can seek repayment of loans.

COUNCIL FINANCIAL DISTRESS – LGFA IMPACT

As at 31 October 2023, 34 LGFA member councils and 1 CCO have external credit ratings (A+ to AA+ range).

- LGFA undertakes detailed credit analysis of each council when they apply to join LGFA (and ongoing) not every council has been accepted as a member.
- □ A council default becomes a timing issue for LGFA:
 - LGFA lending secured against rates revenue under Debenture Trust Deed;
 - > unlikely to be other material claimants on rates revenue given LGFA is the dominant lender to councils;
 - Council's Debenture Trustee appoints receiver and a special rate (property tax) levied on all properties in the council region to meet secured obligations when due; and
 - ➤ rates (property taxes) unavoidable and first ranking claim over property.

□ Sources of LGFA liquidity and additional capital

NZ\$1.5 billion liquidity facility from NZ Government Liquid Assets Portfolio

Issuance of additional LGFA Bills and Bonds

Conversion of Borrower Notes into equity

Uncalled capital of NZ\$20 million

Beneficiaries of the council guarantee (including LGFA bondholders) can also call upon the guarantee from councils in prescribed circumstances.

Central Government does not guarantee obligations of either LGFA or council members.

GSS LOANS

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

LGFA lends funds to Borrowers at a discounted margin to enable them to undertake green, social and/or sustainability (GSS) projects

- GSS Loans are "proceeds-based" loans to Borrowers for assets, projects or activities that meet the GSS Loan Criteria published by LGFA (GSS Loan Criteria)¹. Projects can qualify under 9 Green Loan categories and/or 3 Social Loan categories.
- All Borrowers are eligible for GSS Loans. LGFA may provide GSS Loans for projects that:
 - > provide a demonstrable reduction in energy consumption and/or GHG emissions;
 - strengthen the level of local adaptation to challenges posed by climate change; or
 - have an identified social objective.
- □ To be eligible for GSS Loans, projects must:
 - target requirements higher than or at least the minimum requirements in the relevant New Zealand legislation, policies or principles; and
 - have explicit climate, environmental, social, or sustainable ambitions.
- The GSS Loan Criteria is aligned to the Green Loan Principles and the Social Loan Principles.
- Sustainalytics has verified that the GSS Loan Criteria is aligned to the Green Loan Principles 2023 and the Social Loan Principles 2023.

<text><text><text>

CLIMATE ACTION LOANS

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

LGFA lends funds to Borrowers at a discounted loan margin when they commit to address GHG emissions aligned to science-based trajectory

- □ Climate Action Loans (CALs) are "general purposes" loans with a pricing incentive for Borrowers to act on climate change and reduce GHG emissions in accordance with the requirements of the CAL Criteria published by LGFA (CAL Criteria)¹.
- □ All Borrowers are eligible for CALs, including those who may not have any eligible projects to access GSS Loans.
- □ To qualify for a CAL, a Borrower must have the following in place:
 - > An Emission Reduction Plan (ERP) which includes:
 - a Borrower's intended pathway to reduce its Scope 1 and Scope 2 GHG emissions in line with the science-based trajectory (i.e. to support limiting global warming to no greater than 1.5 degrees Celsius above pre-industrial levels) and net zero by 2050; and
 - annual GHG targets (for Scope 1 and Scope 2 GHG emissions) covering short-term periods and medium-term targets that ultimately support the Borrower to achieve its long-term goal of alignment to the science-based trajectory and net zero by 2050 (or sooner).
 - Borrowers must obtain annual external verification (by a credible provider) of their GHG emissions inventory.
- □ There is no penalty if a Borrower misses its emissions reduction target or fails to report as required under the CAL Criteria. However, LGFA will "declassify" the CAL which means (a) LGFA will remove the Borrower's name from the list of CAL borrowers on LGFA's website, and (b) LGFA will name the Borrower on LGFA's website as a Borrower which has had its CAL declassified as a result of non-compliance with the CAL Criteria. The CAL will remain declassified until the CAL Criteria is met.

¹The CAL Criteria may be updated from time to time. The current CAL Criteria can be found at <u>www.lgfa.co.nz/sustainability/sustainable-lending/climate-action-loans</u>

ALIGNMENT OF CAL CRITERIA WITH MARKET STANDARDS

New Zealand Local Government Funding Agency Te Pūtea Kāwanatanga ā-rohe

The CAL Criteria partially aligns to the Sustainability-Linked Loan Principles

- □ Sustainalytics has reviewed the CAL Criteria and reached the following conclusions.
- The KPI and SPT that both form the basis of CALs are both in line with the Sustainability-Linked Loan Principles 2023 (SLLP):
 - > The KPI that forms the basis of the CAL Criteria is absolute gross Scope 1 and Scope 2 GHG emissions (measured in tCO_2e).
 - The CAL Criteria is programmatic in that it covers a range of Borrowers.
 - Despite this programmatic approach, the KPI is considered material for all Borrowers.
 - The SPT in the CAL Criteria is the reduction in absolute gross Scope 1 and Scope 2 GHG emissions in line with a 1.5°C science-based scenario.
 - The target aligns with New Zealand's sustainability strategy.
 - The target is considered highly ambitious given that it is expected to align with the science-based targets to reduce GHG emissions, to help limit global warming to 1.5°C and support the achievement of net zero emissions by 2050 in New Zealand.
- The CAL Criteria is in line with four of the five core components of the SLLP:
 - The one component in the CAL Criteria that does not align with the SLLP is the pricing and margin adjustment (Component 3 of the SLLP).
 - This is because a penalty for failure to meet the CAL requirements is declassification of the CAL, not a pricing penalty. A pricing penalty cannot be linked within the same term of the CAL due to the potential impact on LGFA's financial statements under current accounting standards. Accordingly, the CAL Criteria does not fully align with the SLLP for this reason.
