IMPORTANT NOTICE

This Series Notice is prepared in respect of an offer by New Zealand Local Government Funding Agency Limited ("**LGFA**") of unsecured, unsubordinated fixed rate sustainable financing bonds maturing on 15 May 2034 ("**Sustainable Financing Bonds**") under its master trust deed dated 7 December 2011 (as amended from time to time) ("**Master Trust Deed**") as supplemented by a supplemental trust deed dated 6 April 2023 (as amended from time to time) (together, the "**Trust Documents**") entered into between LGFA and Trustees Executors Limited ("**Supervisor**"). The Sustainable Financing Bonds are "Retail Notes" for the purposes of the Trust Documents.

Unless defined in this Series Notice or the context requires otherwise, capitalised terms used in this Series Notice have the meaning given to them in the Trust Documents or LGFA's Sustainable Financing Bond Framework dated 17 September 2025 (as amended from time to time) ("**Sustainable Financing Bond Framework**") (as appropriate).

The offer of Sustainable Financing Bonds is an offer of debt securities by LGFA made in reliance upon the exclusion in clause 19 of schedule 1 of the Financial Markets Conduct Act 2013 ("**FMCA**").

The offer contained in this Series Notice is an offer of Sustainable Financing Bonds that will have identical rights, privileges, limitations and conditions (except for the interest rate and/or maturity date) as LGFA's:

- (a) fixed rate sustainable financing bonds maturing on 15 May 2030 with an interest rate of 4.50% per annum, which are quoted on the NZX Debt Market under the ticker code LGF170; and
- (b) fixed rate sustainable financing bonds maturing on 14 May 2032 with an interest rate of 4.50% per annum, which are quoted on the NZX Debt Market under the ticker code LGF180,

(together, the "**Quoted Sustainable Financing Bonds**"). Accordingly, the Sustainable Financing Bonds are of the same class as the Quoted Sustainable Financing Bonds for the purposes of the FMCA and the Financial Markets Conduct Regulations 2014.

LGFA is subject to a disclosure obligation that requires it to notify certain material information to NZX Limited ("**NZX**") for the purpose of that information being made available to participants in the market and that information can be found by visiting <https://www.nzx.com/companies/LGF>.

The Quoted Sustainable Financing Bonds are the only debt securities of LGFA that are currently quoted and in the same class as the Sustainable Financing Bonds.

Investors should look to the market price of the Quoted Sustainable Financing Bonds referred to above to find out how the market assesses the returns and risk premium for those bonds.

LGFA intends to manage Sustainable Financing Bonds in accordance with the Sustainable Financing Bond Framework.

Sustainable Financing Information

The information below relates to the sustainable financing aspects of the Sustainable Financing Bonds.

<p>Sustainable Financing Bond Framework</p>	<p>The Sustainable Financing Bonds are issued as "sustainable financing bonds" on the basis described below.</p> <p>LGFA raises debt to provide funding to local authorities and CCOs ("Borrowers"). LGFA has developed the Sustainable Financing Bond Framework to:</p> <ul style="list-style-type: none"> • recognise LGFA's commitment to support Borrowers to fund environmental and/or social projects, assets and activities, and incentivise greenhouse gas ("GHG") emission measurement and reductions for a Borrower's operational emissions; • enable LGFA to issue bonds that are notionally allocated to a "Sustainable Loan Asset Pool" comprising Green and Social Loans ("GS Loans") and/or Climate Action Loans ("CALs" and, together with the GS Loans, the "Sustainable Loans")¹ that meet the eligibility criteria in the Sustainable Financing Bond Framework or, in the case of certain GS Loans, the eligibility criteria in the initial Sustainable Financing Bond Framework dated 31 March 2023 ("Initial SFB Framework"); and • advance the market for sustainable finance by providing an innovative and holistic opportunity for investors to support Borrowers to achieve their sustainability aspirations. <p>In particular, the Sustainable Financing Bond Framework outlines the process by which LGFA intends to manage bonds issued as "sustainable financing bonds".</p> <p>The Sustainable Financing Bond Framework was informed by the:</p> <ul style="list-style-type: none"> • International Capital Markets Association's ("ICMA") Green Bond Principles ("GBP") and Social Bond Principles ("SBP"); and • Asia-Pacific Loan Market Association's ("APLMA") Green Loan Principles ("GLP"), Social Loan Principles ("SLP"), and Sustainability-Linked Loan Principles ("SLLP"), each as at the date of the Sustainable Financing Bond Framework (together, the "Market Standards"). <p>The Sustainable Financing Bond Framework follows the "proceeds-based" pillars of the Market Standards, and is underpinned by the GS Loan Criteria and the CAL Criteria. However, LGFA is not claiming direct alignment with the Market Standards.</p> <p>As at the date of the Sustainable Financing Bond Framework and the date of this Series Notice, LGFA intends to issue Sustainable Financing Bonds and notionally allocate an amount equal to the net proceeds of those Sustainable Financing Bonds to one Sustainable Loan Asset Pool consisting of Sustainable Loans (either GS Loans, CALs, or both) in accordance with the Sustainable Financing Bond Framework.</p> <p>Morningstar Sustainalytics has provided a Second Party Opinion (dated 17 September 2025) in relation to the Sustainable Financing Bond Framework. See the "Reporting and External Review" section below for where you can find a copy of the Second Party Opinion.</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>Investors should read the Sustainable Financing Bond Framework before deciding whether to invest in the Sustainable Financing Bonds. A copy of the Sustainable Financing Bond Framework can be found by visiting LGFA's website at https://www.lgfa.co.nz/sites/default/files/2025-09/LGFA%20Sustainable%20Financing%20Bond%20Framework%202025.pdf</p> </div>
----------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

¹ GS Loans and CALs are documented as debt securities under LGFA's Multi-Issuer Deed dated 7 December 2011 (as amended and restated from time to time).

	<p>LGFA may update the Sustainable Financing Bond Framework (and, if applicable, the GS Loan Criteria and/or the CAL Criteria) from time to time, at its sole discretion. If LGFA updates the GS Loan Criteria and/or the CAL Criteria:</p> <ul style="list-style-type: none"> • GS Loan Criteria: in relation to an existing project, Borrowers can continue to hold a GS Loan (including any new GS Loans in respect of that project) under the GS Loan Criteria that project was originally approved against. • CAL Criteria: the Borrower can opt to continue to hold CALs under the updated CAL Criteria or notify LGFA that it wishes to declassify their CALs. Where a declassification occurs, each CAL will be treated as a standard loan instead of a CAL. <p>Accordingly, the Sustainable Loans may not all be subject to the same GS Loan Criteria or CAL Criteria (as applicable).</p> <p>The information below relates to the GS Loan Criteria and CAL Criteria as at the date of this Series Notice.</p> <p>GS Loans</p> <p>GS Loans are loans to Borrowers for assets, projects or activities that meet at least one of ten green project categories or three social project categories identified in the Sustainable Financing Bond Framework. Those green and social project categories are identified in the Sustainable Financing Bond Framework and outlined in more detail in the GS Loan Criteria (the GS Loan Criteria can be found by visiting LGFA's website at https://www.lgfa.co.nz/sites/default/files/2025-09/LGFA-GS-Loan-Criteria-f.pdf).</p> <p>Morningstar Sustainalytics has provided a Second Party Opinion (dated 17 September 2025) that the GS Loan Criteria aligns with the GLP and the SLP. See the "Reporting and External Review " section below for where you can find a copy of the Second Party Opinion.</p> <p>CALs</p> <p>CALs are target-based incentive lending structures, designed to incentivise Borrowers to reduce organisational GHG emissions. To be eligible to apply for a CAL, the Borrower must fulfil the relevant criteria, including providing a "GHG Emissions Inventory" and an "Emissions Reduction Plan" or "ERP" that sets out a plausible strategy to achieve specific "Emission Reduction Targets". More detail about the requirements for CALs, including GHG Emissions Inventories, ERPs and Emission Reductions Targets, are outlined in the Sustainable Financing Bond Framework and in the CAL Criteria (the CAL Criteria can be found by visiting LGFA's website at https://www.lgfa.co.nz/sites/default/files/2025-09/LGFA-CAL-Loan-Criteria-e.pdf).</p> <p>Morningstar Sustainalytics has provided a Second Party Opinion (dated 17 September 2025) that the CAL Criteria is partially aligned with the intent of the SLLP. See the "Reporting and External Review" section below for where you can find a copy of the Second Party Opinion.</p>
<p>Sustainable Loan Register</p>	<p>LGFA will maintain a register for the Sustainable Loan Asset Pool ("Sustainable Loan Register"). The Sustainable Loan Register outlines, among other things:</p> <ul style="list-style-type: none"> • the current value of the GS Loans and CALs included within the Sustainable Loan Asset Pool (based on the principal amount of the relevant loan advanced to the relevant Borrower); • the notional allocation of an amount equal to the net proceeds of the sustainable financing bonds (including the Sustainable Financing Bonds) against the GS Loans and CALs included in the Sustainable Loan Asset Pool; and • disclosure of any unallocated net proceeds from the sustainable financing bonds (including the Sustainable Financing Bonds).

	<p>LGFA intends to notionally allocate an amount equal to the net proceeds of the Sustainable Financing Bonds to Sustainable Loans within two years of the Issue Date. When notionally allocating an amount equal to the net proceeds from the Sustainable Financing Bonds to Sustainable Loans, LGFA will only include Sustainable Loans that were advanced in the two years before the Issue Date.</p> <p>Pending allocation, any unallocated net proceeds will be temporarily invested in:</p> <ul style="list-style-type: none"> • cash and money market securities, green, social and/or sustainability bonds issued by other entities, local government and/or central government debt. All investments (other than cash) must have a minimum credit rating of A+ by Standard & Poor's Global Ratings or a corresponding credit rating by another rating agency approved by LGFA; or • investment instruments that do not include GHG emissions intensive projects which are inconsistent with the delivery of a low carbon and climate resilient economy.
<p>No Event of Default if Sustainable Financing Bonds cease to have "sustainable financing" status</p>	<p>LGFA will service its debt obligations under Sustainable Financing Bonds out of its general cashflows and not specifically from revenues generated by Sustainable Loans alone.</p> <p>LGFA intends to manage Sustainable Financing Bonds in accordance with the Sustainable Financing Bond Framework. However, the Sustainable Financing Bond Framework does not form part of the contractual terms of any Sustainable Financing Bond. If LGFA fails to comply with the Sustainable Financing Bond Framework or any other matters set out in this Series Notice relating to the "sustainable financing" status of the Sustainable Financing Bonds, or the Sustainable Financing Bonds cease to have "sustainable financing" status:</p> <ul style="list-style-type: none"> • this will not constitute an Event of Default or any other breach in relation to the Sustainable Financing Bonds; and • neither LGFA nor holders have any right for the Sustainable Financing Bonds to be repaid early. <p>This means there is no legal obligation on LGFA to allocate the net proceeds of the Sustainable Financing Bonds in the manner or by the time described in the Sustainable Financing Bond Framework or to comply with the Sustainable Financing Bond Framework or the Market Standards on an ongoing basis.</p> <p>However, if:</p> <ul style="list-style-type: none"> • LGFA fails to comply with the Sustainable Financing Bond Framework; or • LGFA is required by applicable law and/or the NZX Listing Rules to stop describing the bonds as Sustainable Financing Bonds as that status has become misleading, deceptive or inaccurate or is likely to mislead or deceive, <p>the bond may cease to have "sustainable financing" status.</p> <p>If the bonds cease to have "sustainable financing" status because it is misleading or inaccurate to describe the Sustainable Financing Bonds in this way, LGFA is required to notify the NZX. In these circumstances, the NZX may remove any designation it has given to the Sustainable Financing Bonds that related to their "sustainable financing" status.</p> <p>In addition, if the loss of "sustainable financing" status is "material information" under the NZX Listing Rules, LGFA is required to notify the NZX of that information for the purpose of that information being made available to participants in the market and that information can be found by visiting https://www.nzx.com/companies/LGF.</p>

- **Impact Reporting:** LGFA will endeavour to provide qualitative and/or quantitative reporting of the environmental and/or social impacts of the Sustainable Loans included within the Sustainable Loan Asset Pool.

Impact reporting indicators will be subject to availability of information and confidentiality requirements.

LGFA published its Annual Impact Report under the Sustainable Financing Bond Framework (dated 30 September 2025), reporting on the allocation of proceeds of sustainable financing bonds as at 30 June 2025, a copy of which can be found at <https://www.lgfa.co.nz/sites/default/files/2025-09/Annual-Impact-Report-2025-%20FINAL.pdf>.

As set out in the Sustainable Financing Bond Framework, LGFA will also publish a monthly Sustainable Financing Allocation Report. LGFA published its latest Sustainable Financing Allocation Report (dated 31 March 2026), reporting on the allocation of proceeds of sustainable financing bonds as at 31 March 2026, a copy of which can be found at <https://www.lgfa.co.nz/sites/default/files/2026-03/LGFA%20Sustainable%20Financing%20Allocation%20Report%20-%2031%20March%202026.pdf>.

Annual external review

As set out in the Sustainable Financing Bond Framework, LGFA also intends to engage Morningstar Sustainalytics, or another appropriately qualified external reviewer, to carry out an annual review of each Annual Update Report, including confirmation that:

- the Sustainable Loans included in the Sustainable Loan Register meet the GS Loan Criteria and/or the CAL Criteria and comply with the Sustainable Financing Bond Framework; and
- the impact reporting metrics have been fairly and accurately represented (if applicable).

Morningstar Sustainalytics was appointed to review LGFA's Annual Impact Report under the Sustainable Financing Bond Framework (dated 30 September 2025). Morningstar Sustainalytics issued an Annual Review on 25 September 2025, a copy of which can be found at https://www.lgfa.co.nz/sites/default/files/2025-09/New%20Zealand%20Local%20Government%20Funding%20Agency%20Annual%20Review%202025_Revised.pdf.

In the Annual Review Morningstar Sustainalytics concluded that based on the limited assurance procedures conducted:

- nothing had come to its attention that caused it to believe that, in all material respects, the Sustainable Loan Asset Pool financed from the Quoted Sustainable Financing Bonds do not conform with the use of proceeds criteria and reporting commitments in the Sustainable Financing Bond Framework; and
- nothing had come to its attention that caused it to believe that, in all material respects, LGFA's measurement of and reporting on its progress towards the CALs targets do not conform with its commitments in the Sustainable Financing Bond Framework.

Additional Information

Guarantee and Security Arrangements

LGFA's obligations in relation to (among other things) the Securities are guaranteed by the local authorities that are from time to time Guarantors under the Guarantee (as defined below). Other than the New Zealand Government, each holder of ordinary shares in LGFA must be (and, at the date of this Series Notice, is) a Guarantor. In addition, see "Guarantors" in the "Key terms of the Sustainable Financing Bonds and the offer" section of this Series Notice in relation to LGFA's policy regarding other local authorities that must be Guarantors.

The Guarantors each jointly and severally guarantee to TEL Security Trustee (LGFA) Limited ("**Security Trustee**"), for the benefit of the Supervisor (in the case of each Series of Retail Securities), each holder of Wholesale Securities (in the case of each Series of Wholesale Securities) and other creditors of LGFA to whom LGFA extends the benefit of the Guarantee and the Security Trust Deed from time to time (each such creditor, including the Supervisor and the holders of Wholesale Securities, a "**Beneficiary**"), LGFA's due payment and delivery of all amounts LGFA is or may at any time become liable to pay to the Beneficiaries ("**Guarantee**").

In the case of each Series of Retail Securities, the Security Trustee must make a demand under the Guarantee on behalf of the Supervisor when the Supervisor requests the Security Trustee to do so and confirms to the Security Trustee that an Event of Default has occurred. However, the Supervisor may refrain from exercising its powers to make such a request until it has been instructed to do so by an Extraordinary Resolution of the holders of the affected Retail Securities.

In the case of each Series of Wholesale Securities, the Security Trustee must make a demand under the Guarantee on behalf of each holder of Wholesale Securities when such holder requests the Security Trustee to do so and confirms to the Security Trustee that an Event of Default has occurred.

Each demand the Security Trustee makes under the Guarantee must be made on a pro-rata basis according to each Guarantor's prior year's annual rates revenues. If a Guarantor fails to pay its pro-rata share of a demand under the Guarantee, the Security Trustee will make further demands on the other Guarantors for payment of the unpaid amount on a pro-rata basis until the outstanding amounts are paid in full.

Each Guarantor must have entered into a Debenture Trust Deed with a Debenture Trustee. In summary, each Debenture Trust Deed creates a security interest in favour of the Debenture Trustee over all rates the local authority sets or assesses from time to time under certain legislation or arising under section 115 of the Local Government Act 2002 and all rates revenue in respect thereof. The security is limited to rates and rates revenues, and does not extend to any other assets of the local authorities. The security interest is held by the Debenture Trustee for the benefit of all creditors of the Guarantor to whom the Guarantor has issued Stock (including Security Stock). Each Guarantor must have issued Security Stock to the Security Trustee to secure its liabilities under the Guarantee. The Security Trustee holds the benefit of the Security Stock on behalf of the Supervisor (in the case of each Series of Retail Securities), each holder of Wholesale Securities (in the case of each Series of Wholesale Securities) and the other Beneficiaries from time to time.

Each Guarantor must have issued a Security Stock Certificate to the Security Trustee in relation to the Guarantee.

- In the case of certain Guarantors, the relevant Security Stock Certificate provides that the Priority Amount of the Security Stock is (subject to certain exclusions specified in the relevant Debenture Trust Deed and/or Security Stock Certificate) the aggregate amount of the obligations the relevant Guarantor owes the Security Trustee under the Guarantee from time to time. That Guarantor's obligations to the Security Trustee rank equally with all other obligations of the Guarantor in respect of which "first ranking" Stock (including Security Stock) has been issued from time to time, up to the Security Trustee's Priority Amount. Amounts above the Security Trustee's Priority Amount rank behind the claims of other "first ranking" holders of Stock ("**Stockholders**") but before claims of any subsequent security holders of the relevant Guarantor.

- In the case of all other Guarantors, the relevant Guarantor's obligations to the Security Trustee rank equally with all other obligations of the Guarantor in respect of which Stock (including Security Stock) has been issued from time to time, without any Stock having preference or priority over any other Stock, unless the terms of the relevant Stock expressly subordinate it to other Stock.

If a Guarantor does not satisfy its obligations under the Guarantee, the Security Trustee may request the relevant Debenture Trustee to enforce the security interest created by the Debenture Trust Deed. The Security Trustee is not required to exercise its rights as holder of Security Stock unless it is requested to do so by Beneficiaries whose aggregate Exposures amount to not less than 25% of the aggregate Exposures of all Beneficiaries at the relevant time and those Beneficiaries have confirmed to the Security Trustee that an event of default has occurred.

The Supervisor and each holder of Wholesale Securities are Beneficiaries under the Security Trust Deed and so may request the Security Trustee to exercise its rights under a Debenture Trust Deed as a holder of Security Stock. However, in the case of Retail Securities, the Supervisor may refrain from making such a request until it has been instructed to do so by an Extraordinary Resolution of the holders of the affected Retail Securities.

The Debenture Trustee is not required to enforce the security interest created by the Debenture Trust Deed unless directed to do so by an extraordinary resolution of Stockholders and/or in certain cases a specified percentage of "majority stockholders". The Debenture Trustee is not bound to comply with such a direction if it is not first indemnified to its satisfaction against any actions, proceedings, claims, demands, costs and expenses that it may face as a result of complying with the direction. The Debenture Trustee has the power under each Debenture Trust Deed to appoint a receiver to levy a special rate on the relevant local authority's ratepayers.

Schedule 2 – Issue/Settlement Price

The issue/settlement price per N dollars of principal shall be calculated on the basis of the following formula:

$$\text{ISSUE/SETTLEMENT PRICE PER \$N PRINCIPAL} = \left(\frac{\frac{1}{(1+i)^n} + r \left[c + \frac{1 - \frac{1}{(1+i)^n}}{i} \right]}{(1+i)^{\frac{a}{b}}} \right) N$$

- Where
- N = the principal of the Sustainable Financing Bonds (\$)
 - r = the annual Coupon/Interest Rate divided by two hundred, i.e. the semi-annual Coupon/Interest Rate (%)
 - i = the yield divided by two hundred, i.e. the semi-annual yield (%)
 - c = where the Issue Date is after the Record Date and up to, but not including, the next Interest Payment Date “c” has the value of 0, otherwise “c” has the value of 1
 - n = the number of full half years between the next Interest Payment Date and the Maturity Date
 - a = the number of days from the Issue Date to the next Interest Payment Date
 - b = the number of days in the half year ending on the next Interest Payment Date

Settlements during the period from the Record Date up to, but not including, the Interest Payment Date of any Sustainable Financing Bonds offered will be on an ex-coupon interest basis. All other settlements will be on a cum-coupon interest basis.
